

# Campfire Chair Plans

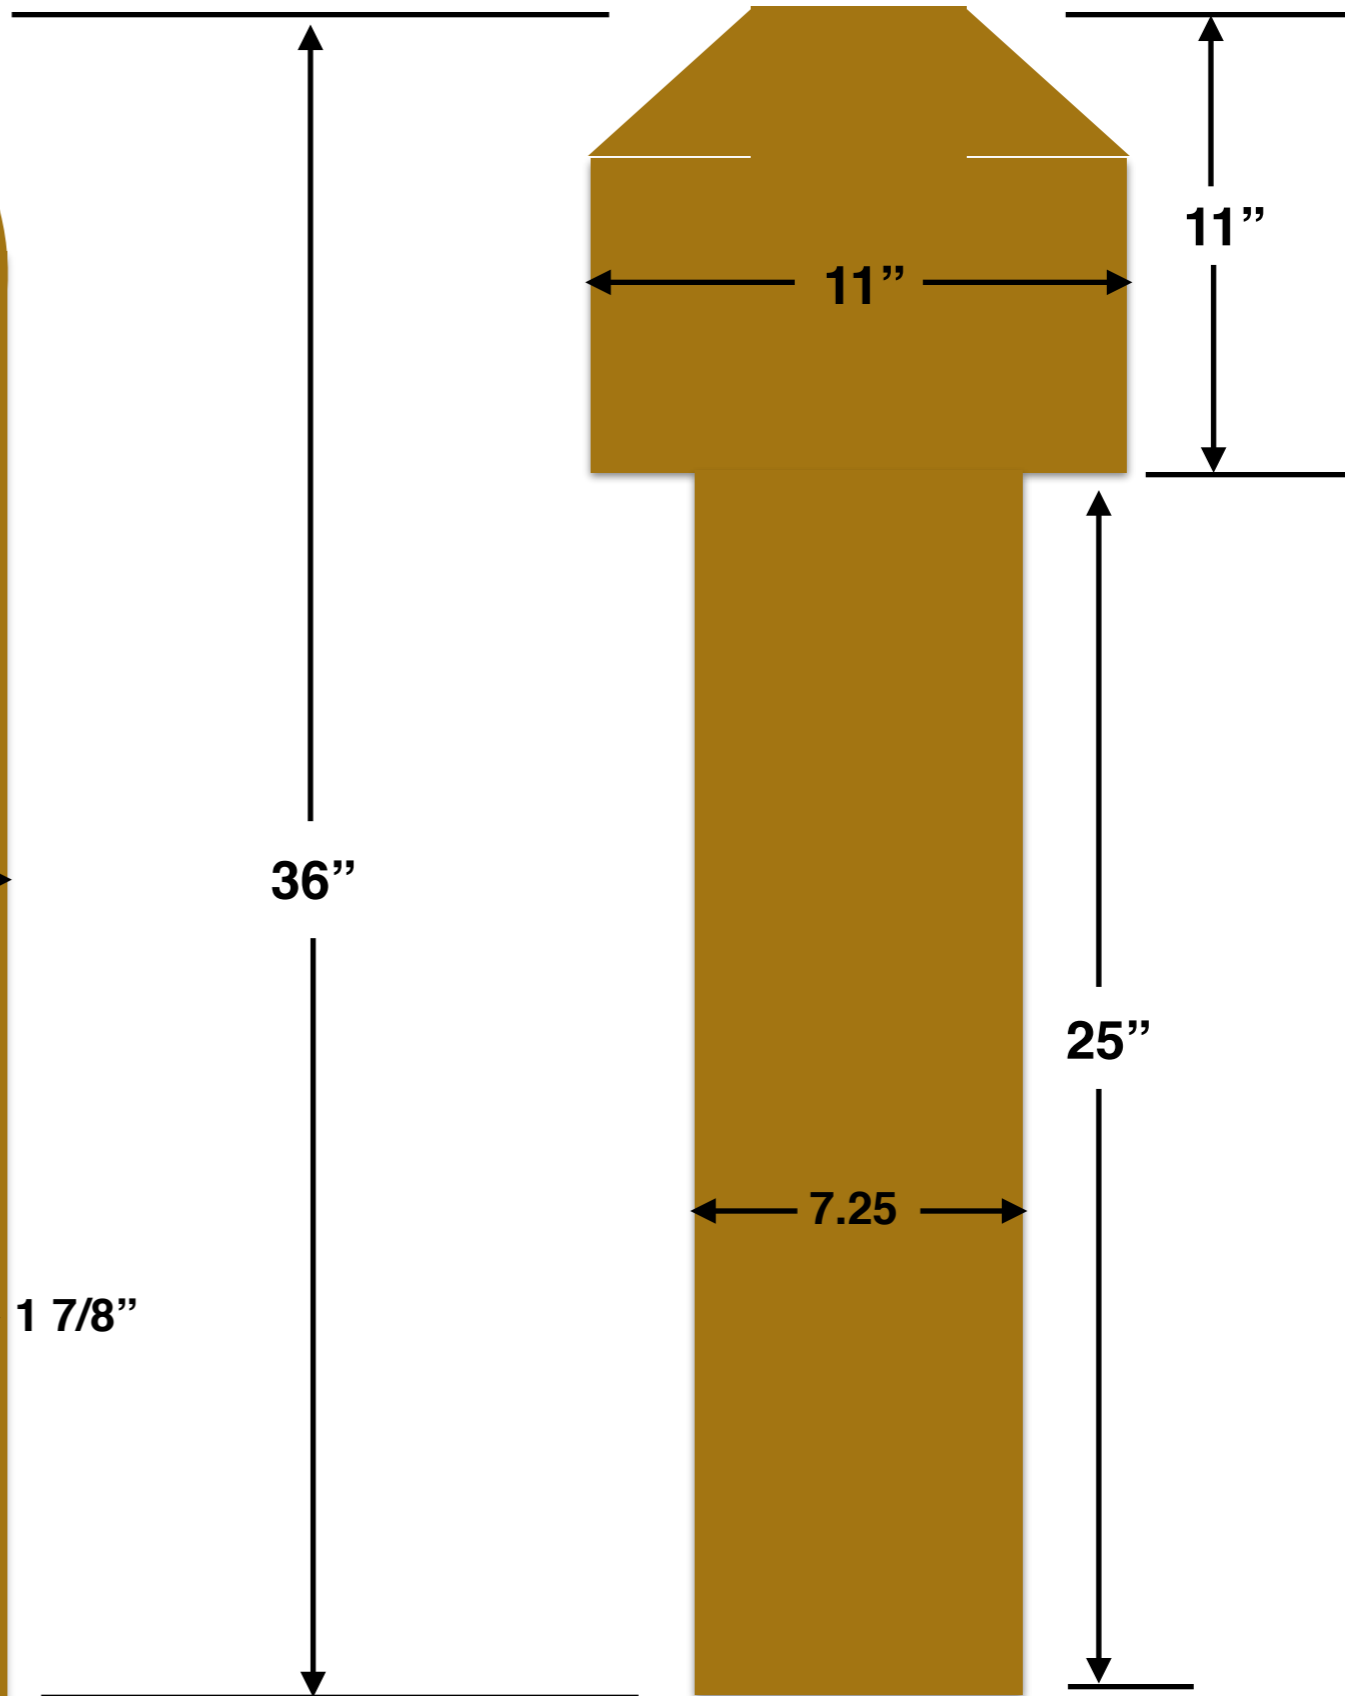

# Tools & Materials

- 2" X 12" X 8' Pine (or wood of choice)
- Tape measure, square & pencil
- Safety gear (glasses, dust mask, hearing protection)
- Circular Saw (or Miter Saw or Hand Saw)
- Jigsaw
- Orbital Sander (40, 80, & 120 grits)
- Stain (your choice)
- Spar Urethane

# Back

# Seat

# Construction Notes

- Watch the tutorial video for more instructions.
- Measure twice — cut once.
- 2” boards should work fine for most folks, but you may want to reinforce if heavy set people will use the chair.
- Follow safety rules while building.
- Follow plans and make cuts.
- Test for fit and make adjustments.
- Sand surfaces and edges (40, 80, 120 grits)
- Wipe off dust, apply stain and let it dry overnight.
- Apply 3 to 4 coats of Spar Urethane.
